CONCUSSION INFORMATION *please read before registering*

CONCUSSION LAW

Due to the increase in concern for concussions in youth sports, there is now a Wisconsin Concussion Law. The Sun Prairie Parks, Recreation & Forestry Department requires all participants to review the Concussion Agreement and Information prior to registering for programs. Our participant safety is our number one concern!

What is a concussion?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move rapidly back and forth. Even a 'ding,' 'getting your bell rung' or what seems to be a mild bump or blow to the head can be serious.

What are the signs & symptoms of a concussion?

Signs and symptoms of a concussion can show up right after the injury or may appear days or weeks after the injury. If an athlete reports one or more symptoms of concussions listed below after a bump, blow or jolt to the head or body, they should be kept out of play the day of the injury and until a health care professional, experienced in evaluating concussions, says they are symptom-free and they are OK to return to play.

SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- Is confused about position or assignment
- Forgets an instruction
- Is unsure of game score or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior or personality changes
- Cannot recall events prior to hit or fall
- Cannot recall events after hit or fall

SYMPTOMS REPORTED BY ATHLETES:

- Headaches or 'pressure' in the head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to noise
- Feeling sluggish, hazy, foggy or groggy
- Concentration or memory problems
- Confusion
- Just not 'feeling right' or 'feeling down'

Concussion Danger Signs

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow or jolt to the head or body they exhibit any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse or slurred speech
- Weakness, numbness or decreased coordination
- Repeated vomiting or nausea
- Convulsions, seizures or unusual behavior
- Cannot recognize people or places
- Becomes increasingly confused or agitated
- Loses consciousness for any amount of time

Why should an athlete report their symptoms?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is healing, they are much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. It can even be fatal.

What should you do if you think your athlete has a concussion?

If you suspect that an athlete has a concussion, remove them from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play until a medical professional says they are symptom free and are OK to return to play. Rest is the key to help an athlete recover. Exercising or activities that involve a lot of concentration (studying, computers, video games, etc.) may cause concussion symptoms to reappear or worsen. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.

Why should parents & athletes be aware of this information?

On April 6, 2012, the State of Wisconsin joined 31 other states by enacting formal legislation dedicated to the safety of youth participating in sports. Wisconsin Act 172 relates to concussions and head injuries sustained in youth activities.

The law requires all youth athletic organizations to educate coaches, athletes and parents on the risks of concussions and head injuries and prohibits participation in a youth activity until the athlete and parent or guardian has returned a signed agreement sheet indicating they have reviewed the concussion and head injury informational materials. The law requires immediate removal of an individual from a youth athletic activity if symptoms indicate a possible concussion has been sustained. A person who has been removed from a youth activity because of a determined or suspected concussion or head injury, may not participate again until he or she is evaluated by a health care provider and receives written clearance from the health care provider to return to the activity.

Where can I find out more about concussions & head injuries?

This information has been reformatted from the Center of Disease Control's Heads Up: Concussion in Youth Sports Program.

A MESSAGE FROM MAYOR PAUL ESSER

As Mayor of this growing community, it is my privilege to present you with the 2024 winter/spring program guide. In these pages, you will discover a vast amount of recreational opportunities that demonstrate all the fun to be had in Sun Prairie. The Sun Prairie Parks, Recreation & Forestry staff are unwavering in their mission to inspire the health, wellness, and connectedness of everyone in our beloved city. In this past year, there has been remarkable successes in pursuit of this mission, with a strong commitment to bringing our community together.

One of the standout moments of this year was the continuous offering of the highly praised Concerts in the Park series. These events not only filled our parks with music and laughter but also created bonds among community members that make Sun Prairie a relational and thriving community. Additionally, staff successfully launched five beer garden events, each one benefiting a different nonprofit organization and demonstrating the value of service through the means of fun and engaging activities. It would be remiss not to mention the remarkable work of our parks department in highlighting the spirit of fun in Sun Prairie through the "FUN Prairie" campaign. Their efforts have a transformative effect on our city, turning it into the vibrant "City of FUN Prairie," during the month of July when staff focus on highlighting all the fun and excitement this community has to offer.

As we look ahead to the winter and spring seasons of 2024, we are excited to build upon the success of the past year and carry this lively spirit in the years to come. I invite you to explore this guide, discover the many exciting offerings, and consider how you can participate in the enrichment of our community. We are here to serve you, and your involvement helps to make Sun Prairie an even better place to live, work, and play.

Thank you for being a part of the Sun Prairie community, and I look forward to seeing you at our upcoming events, programs, and in our beautiful parks.

Music Together

Instructor: Susan Cramer

Each Music Together class is an active music making experience designed to teach the way young children learn: through play with the ones they love! In this mixed-age class each child participates at his or her own level through singing, moving, chanting, listening, watching, and exploring musical instruments. Classes provide a variety of adult-child activities that are engaging and developmentally appropriate and offer new ways to play musically at home.

We'll be singing and dancing to Lukey's Boat, Mr. Rabbit, Obwisana, Old Blue, and Ally Bally, as well as many other favorites! Each ten-week semester includes a beautifully illustrated songbook, a code to download the music collection, and access to Music Together's Family Music Zone. All classes are held at the Westside Community Services Building at 2598 W Main St. More information can be found at musictogetherwithsusan.com.

Pet Exercise Area

The Sun Prairie Pet Exercise Area (Dog Park), located at 1023 S. Bird Street, is a completely fenced in, off-leash dog exercise park that is open year round, from dawn until dusk. The Pet Exercise Area is located on 11 acres and is equipped with parking for 32 cars, picnic tables, benches, and waste disposal bags. There is also water and a portable restroom available.

A permit is required to use the Pet Exercise Area. Annual permits may be purchased at the City Clerk's Office, 300 E. Main Street (City Hall). The permit is valid for use in all Dane County dog parks, as well as the Sun Prairie Pet Exercise Area. The annual permit fee is \$35 (January – December). Permit for additional dogs is \$17. Daily permits are also available on a self-registration basis on site for \$5 per dog, per day.

Snowshoe Rentals

The Parks, Recreation and Forestry Department has youth and adult size snowshoes available for rent. Snowshoeing is a great way to exercise and enjoy winter in Sun Prairie. It's an easy-to-learn activity for all ages! Snowshoes are easily strapped to boots and distribute your weight over a larger area allowing you to stay on top of the snow and ice for easier walking travel. Available rentals are Redfeather Snowshoes made in La Crosse, WI, and will include poles and a carrying case. Request a reservation online or reserve in person at the Parks, Recreation and Forestry Department office.
